RICHIE'S ENGINEERING SERVICES

MACKAY • QUEENSLAND

WE MAKE IT HAPPEN

Richie's Engineering Services are experts in machinery and equipment services specialising in the mining, agriculture, earthmoving and construction industries throughout Queensland.

Services include fabrication, on- and off-site repairs, maintenance services, labour hire, mechanical fitting and machining services, and line-boring.

We are the official distributor of ETT equipment in Australia.

Visit ett.com for more information on the range of OEM equipment offered.

ABOUT RICHIE'S

Richie's Engineering Services is a service provider to the resources industry, dedicated to supporting our customers' efforts in reducing cost and downtime. Through our team of experienced professionals, we offer scheduled and un-scheduled fabrication and repair services which include:

- Manufacturing and repair of heavy ancillary equipment for the resources sectors.
- Mining equipment, structural steel, hoppers, bins, chutes.
- Mechanical services including machining, fitting, line-boring as well as on-site repair and maintenance services.

Operating throughout Queensland, our well-equipped mobile units are dispatched promptly to service the local industries in this region, specialising in the mining, agriculture, earthmoving and construction industries.
